?

What is the average age – how many male and female students are here?

female

male

- Is there a good mix of students from different parts of our country, different social and ethnic backgrounds?

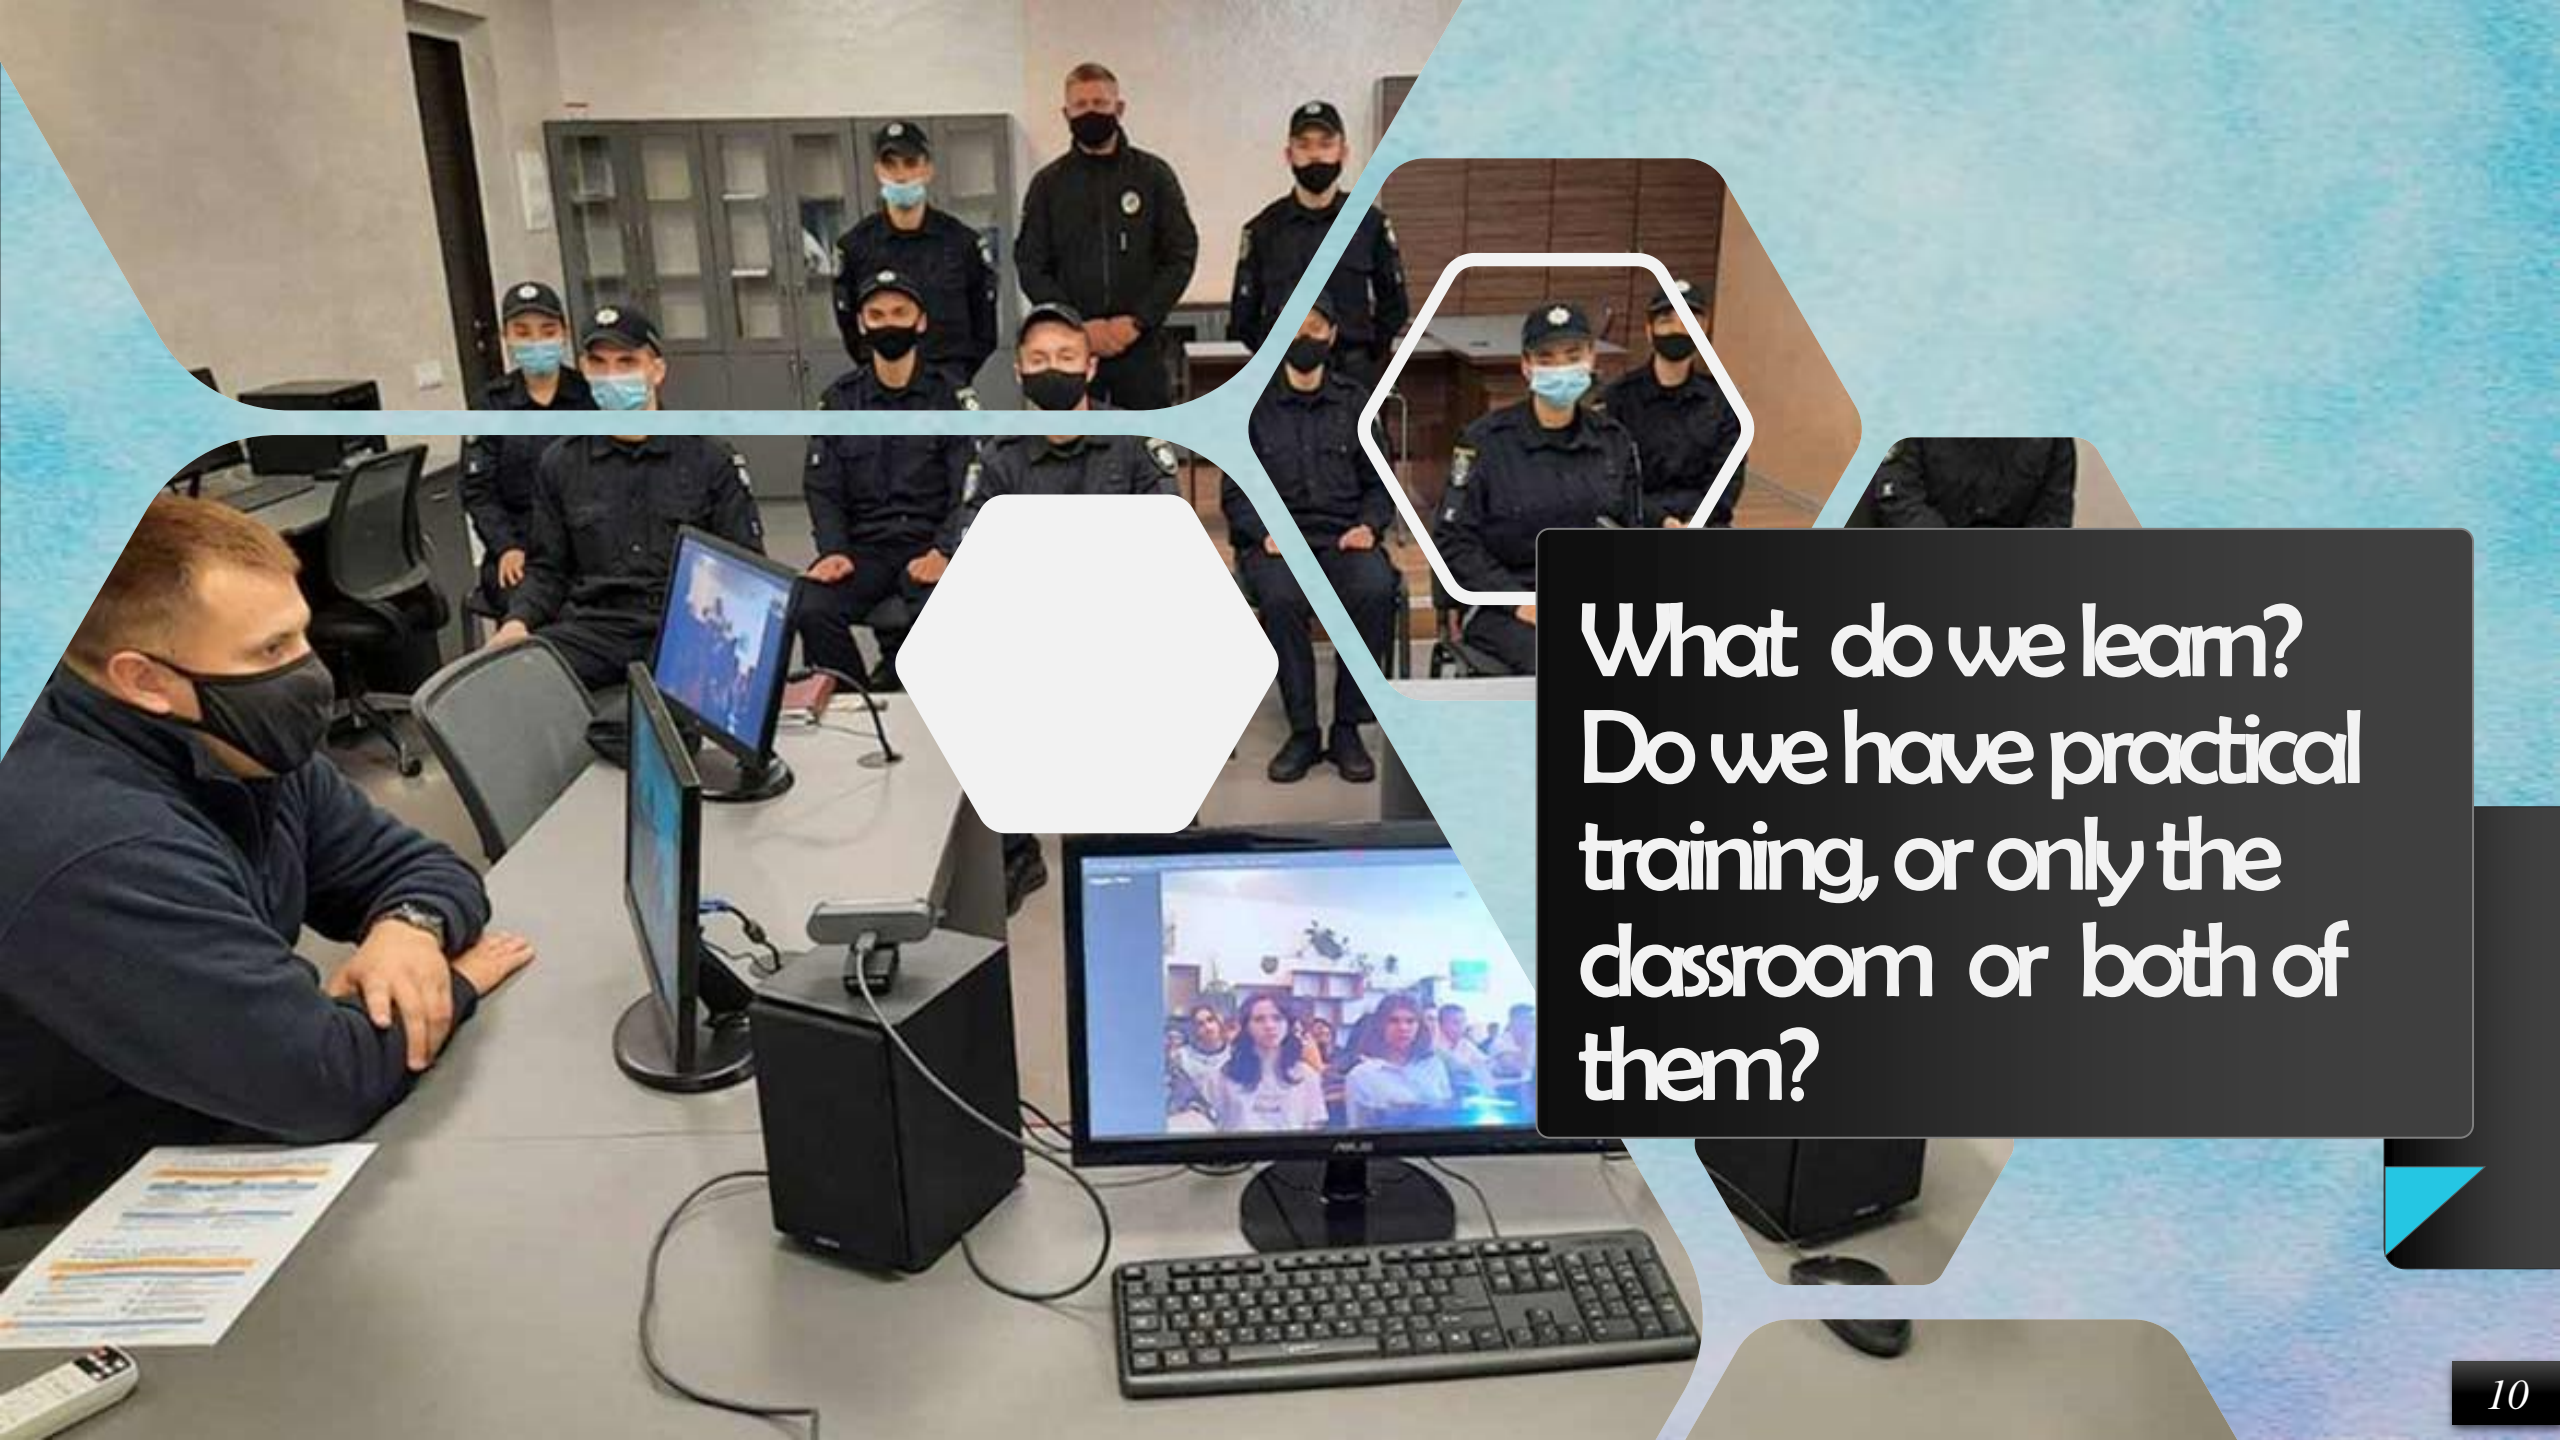

Who teaches here and what are their qualifications?

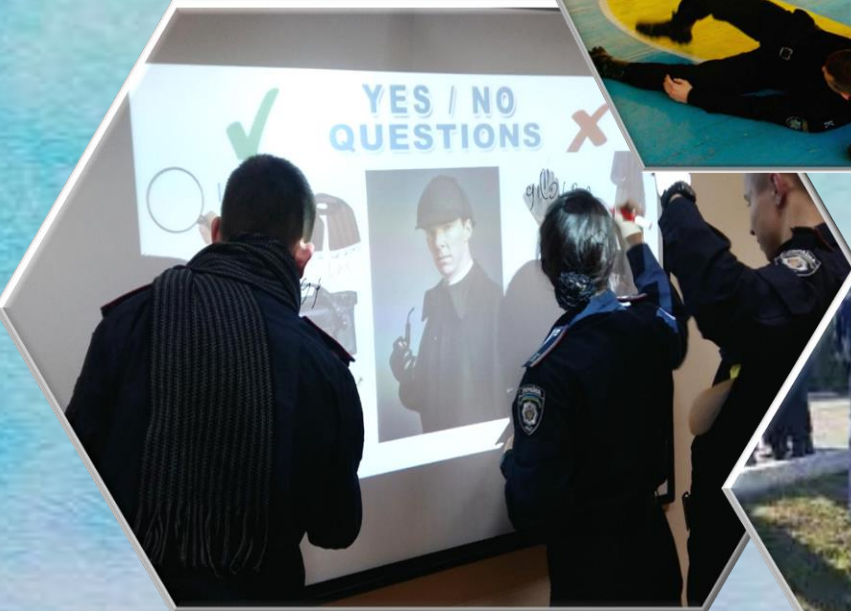

What do we learn?  
Do we have practical training, or only the classroom or both of them?

# Practical training

# Our work in lecture halls

We have a multimedia shooting gallery

Frank kann 4574 und 4918 mm

We have more than 100 practical lessons per semester

**We are always in touch with our university, even during practice**

We use simulation trainings

We are taught professional ethics through lectures and systematic checks with tests

Our specialization come once we start working in a continuing professional development course or developing on where we get work

During the pandemic at our university, lectures were conducted remotely via video communication, but seminars and practical lessons was held at the university
